# YES, WE CAN AUTOMATE ALL OF THIS FOR YOU.

You might think that it can't work for you or your industry. But we promise you, it can. We have clients in multiple industries with infrastructures of many different shapes, sizes, and maturities. You're not an anomaly. We really can automate all of this for you.

**COLLECTIONS AND QUERIES**
*Leverage our years of experience to provide a robust set of management collections and queries for quickly extrapolating data from your infrastructure so you can manage it more effectively.*

**WINDOWS 10 SERVICING**
*Ensure you have a smooth and automated transition from one Windows release to the next.*

**SOFTWARE UPDATE MANAGEMENT**
*Ensure your endpoints are patched and up to date to ensure security and compliance.*

**SITE UPGRADES & COMPONENT HEALTH**
*Ensure your Microsoft Endpoint Manager (SCCM and or Intune) instance is up to date and running smoothly.*

**OTHER**

**CUSTOM REPORTING**
*Help you make informed business, security and technical decisions by providing rich compliance & inventory reporting.*

**ENDPOINT CLIENT HEALTH REMEDIATION**
